

Autodesk® Cloud documents and Autodesk® Design Review mobile app

Advance the Way You Work with Autodesk® Cloud

Autodesk® Cloud enables you to extend your desktop with computing capacity and capabilities, helping you design, visualize, and simulate your ideas to accelerate innovation and gain a competitive advantage.

The Autodesk® Cloud documents service enables users to advance the way they work with cloud-based storage, sharing and viewing.

Storage—Store your design files in the cloud, so you can access them anytime, anywhere. As an Autodesk® Subscription customer, you have more storage capacity (3 GB of storage per seat vs. the 1 GB available for users without Subscription).

Web and Mobile viewing—More easily share your design files with others—even if they lack the design software used to create the files. The viewing capabilities of Autodesk Cloud documents enable users to review 2D and 3D DWF™ files through a web browser or through a mobile device using the Autodesk® Design Review mobile app*

Sharing—Easily share files, keep track of file updates, and invite others to comment on designs via the web.

Availability

Available to Autodesk customers with any product.* 3 GB of storage available only to Subscription customers.

Getting Started

To get started with Autodesk® Cloud documents, go to <http://documents.cloud.autodesk.com>. Click 'Sign In' to enter your current Autodesk ID and password, or create a new account. Download the Autodesk® Design Review mobile app at <http://autodesk.com/downloadaddesignreviewmobile>.

* The availability of Autodesk Cloud services varies by language and region and may change over time. Please contact your Autodesk reseller or representative for more information. Cloud services are valid for the duration of the customer's Subscription. All Autodesk Cloud benefits are subject to the terms and conditions accompanying the service.
